Brampton Primary School's Single Equality & Inclusion Scheme has been devised with due consideration to and in line with statutory guidance given in:-

- 2006 The Education and Inspections Act
- 2010 Equality Act

Single Equality & Inclusion Scheme Statement

This Single Equality & Inclusion Scheme is intended to respond to the spirit as well as the letter of 2010 Equality Act and the Education and Inspections Act 2006 to promote community cohesion. It also aims to promote all other forms and strands of equality & inclusion that are relevant to life in our school such as attainment & background. The policy relates directly to the school's values statement and aims.

The school has statutory duties to promote difference and diversity and protect against discrimination on the grounds of. Race, gender & gender reassignment, disability, sexual orientation, age and religion/belief.

The Scheme aims to integrate equality into the school's core priorities and functions, including all pupils in the full life of the school.

This Single Equality & Inclusion Scheme will inform our School Development Plan as this will enable us to:

- Demonstrate how promoting equality and eliminating discrimination can help raise standards
- Ensure that equality and diversity are part of the school's core business both as a school and as an employer
- Ensure that our priorities for raising standards support our equality objectives
- Inform the overall evaluation of our effectiveness in our self-evaluation form for future Ofsted inspections

The Equality and Human Rights Commission is the enforcement body for equalities legislation and can serve the school with a Compliance Notice if it fails in its specific duties under the Acts.

What do we mean by Equality and Diversity?

Equality refers to outcomes, making sure that all social groups benefit equally from our activities. Diversity recognises that we can only achieve equality by taking into account the different needs of communities. Equality is impossible to achieve without recognising diversity.

What is discrimination?

Discrimination is a type of negative treatment that affects a whole group of people, or an individual because they belong to a group.

Direct discrimination is when a person is treated less favourable than others because of their (real or perceived) race/ethnicity, socio-economic background, and disability, age, sexual orientation, religion/belief or gender/gender reassignment.

Indirect discrimination is when there are rules or procedures that have the effect of discriminating against certain groups of people.

Race Equality Scheme

This Scheme incorporates all of our duties under the 2010 Equality Act.

It is our duty to:

- Eliminate unlawful racial discrimination.
- Promote equal opportunities.
- Promote good relations between people of different racial groups.

In order to ensure this, the school will:

- Monitor existing functions and carry out Equality Impact Assessments on policies and functions
- Publish results of Equality Impact Assessments
- Make information available and accessible to all groups
- Monitor the attainment level of Black and Minority Ethnic¹ pupils
- Train staff to understand race equality
- Carry out staff ethnic monitoring

All schools are required to record any racial incidents and report them to the Local Authority regularly. We use the electronic reporting system provided by Children's Services to do this

when incidents occur and to provide a termly summary. We will also respond appropriately to any racial incidents that happen in school and these are recorded.

Disability Equality Scheme

Legal Requirements

This Scheme incorporates all of our duties under the 2010 Equality Act.

It is our duty to:

- Promote equality of opportunity for disabled pupils, staff, parents/carers and other school users
- Eliminate unlawful discrimination
- Eliminate harassment of disabled people
- Promote positive attitudes to disabled people
- Encourage participation by disabled people in public life
- Take into account a disabled person's disability even if it means treating the disabled person more favourably

In order to ensure this, the school will:

- Includes a three year action plan
- Involves disabled pupils and other disabled people in all stages of the scheme
- Carry out Equality Impact Assessments of policies and procedures to make sure that disabled people are not being treated unfairly
- Publish the results of these Equality Impact Assessments
- Report annually on the progress of the action plan

Social and medical models of disability

One of our key goals is to challenge the view that the inequality faced by disabled people is down to their medical 'problems'.

The medical model has fed negative stereotypes held by non-disabled people such as:

- Focusing only on what a person cannot do.
- Making assumptions about what is best for the disabled person.
- Thinking that disabled people lack intelligence.
- Feeling embarrassed among disabled people.
- Bullying and harassing disabled people.

What is a disability?

Disability is any condition that affects a person in their day to day life. This can happen suddenly, for example as a result of an accident, or gradually as a result of a condition such as arthritis.

This is called an impairment. There are around 400 impairments including:

- Mobility impairments (requiring aids such as sticks or wheelchairs to move about).
- Sensory impairments (hearing or sight loss).
- Mental ill health (including depression, stress, Alzheimer's disease and schizophrenia).
- Cognitive developmental impairments (including learning disabilities, dyslexia, and autism).
- Muscular impairments (including spinal injuries).
- Asthma
- Cancer
- HIV/AIDS
- Phobias
- Arthritis
- Acquired brain injuries.

Reasonable adjustments

The school is required to improve access to the curriculum, the buildings and other services to disabled people. This also means that we need to take a proactive stance and anticipate what we may need in the future for disabled users.

Recruitment and Retention of disabled staff

Our school welcomes a diverse workforce and we wish for an ethos where potential and existing staff feel able to disclose any impairment that they have. This is not just for data collection purposes, but in order for the school to make any reasonable adjustments for this member of staff. All disclosures will be treated sensitively and confidentially.

Disability and special educational needs

Not all pupils who are defined as disabled will have special educational needs. For example, those with severe asthma or diabetes may not have SEN but may have rights under the 2010 Equality Act. Similarly, not all children with SEN will be defined as having a disability.

Gender Equality Scheme

Legal requirements

This Scheme incorporates all of our duties under the 2010 Equality Act.

It is our duty to:

- Eliminate unlawful discrimination and harassment
- Promote equality of opportunity between men and women.

In order to ensure this, the school will:

- Take steps to address the causes of any gender pay gap
- Collect and use information on gender equality in the school
- Consult with stakeholders on priorities for gender equality
- Carry out Equality Impact Assessments
- Identify priority areas for gender equality
- Publish a three year action plan and report on it yearly

The school's promotes equality for men, women and transgendered people.

What is gender?

Gender refers to the social construction of female and male identity, rather than biological differences between men and women. It includes the ways in which those differences, whether real or perceived, have been valued and used to classify women and men and to assign roles and expectations to them. Gender identity is not always fixed and the 2010 Equality Act urges us to have due regard to the needs of transgender people.

Sexuality, Age & Religion/Belief Equality Scheme

Legal requirements

Like race, disability and gender the 2010 Equality Act states that schools should eliminate discrimination against lesbian, gay or bi-sexual & transgender people, eliminate age related discrimination or eliminate discrimination on the grounds of a person's religion or deeply held beliefs. Protection for transgender pupils against gender reassignment discrimination is also included in this Act.

The 2010 Equality Act gives people of all age groups rights against discrimination at work, including vocational training. The Act covers:

- Mandatory retirement.
- Discrimination in recruitment, retention and training
- Dismissal and redundancy.
- Statutory sick pay and maternity.
- Harassment in the workplace.

The 2010 Equality Act gives people of all religious faiths rights against discrimination in the workplace.

We are committed to ensuring that everyone should have equal access to all the services provided by the school and that no-one within our school community experiences discrimination due to their sexual orientation, age or religion or beliefs.

Community Cohesion Scheme

Legal Requirements

The Education and Inspections Act 2006 introduced a new duty for schools to promote community cohesion. Community Cohesion will become part of the Ofsted inspection framework from September 2008.

What is community cohesion?

A cohesive community is one in which:

- There is a common vision and sense of belonging for all communities
- The diversity of backgrounds and circumstances are appreciated and valued
- Similar life opportunities are available to all
- Strong and positive relationships exist and continue to be developed in schools and our communities

Schools and their communities

Community Cohesion needs to be owned by all organisations and community groups if it is to be effective. Schools belong to many different communities. Our school's communities include:

- the *school community* – our pupils, their families, school staff, school governors, users of the school's facilities
- the *local community* – our school in its geographical community and the people who live or work in the area including local school links & networks
- the *UK community* – we are by definition part of this
- the *global community* – formed by EU and international links

What impact have we already had on community cohesion in our school?

Teaching, learning and curriculum

- Promoting shared values
- Building pupils' understanding of their own identity and the diversity around them
- Having high expectations of all pupils
- Skilling pupils to challenge prejudice, discrimination and stereotyping

Equity and excellence

- Analysing assessment results to identify performance of different groups
- Tackling underperformance by any particular group
- Removing barriers to access to the school for all groups

Engagement with extended services

- Building positive relations with different groups
- Building meaningful partnerships with the local authority, parents, local community groups and voluntary groups
- Enabling the pupil voice to be heard and enable change

Equality & Inclusion Impact Assessments

An equality & inclusion impact assessment is a risk assessment of a strategy, policy or procedure. The purpose is to see if there is anything in the way the school works that discriminates against the six equality strands. The school can then avoid making decisions that have a negative impact on groups or can make a decision knowing that there will be an impact but that it can be limited.

Equality & Inclusion Impact Assessments are a legal requirement in relation to ethnicity, disability and gender.

The school will carry out Equality & Inclusion Impact Assessments of all our functions and policies over a three year cycle. We will publish the results of our equality & inclusion impact assessments.

Monitoring

The school will collect information and report annually on:

- All pupils, staff, governors and other school users where appropriate by all six equality strands
- Attainment levels, exclusions and attendance data of pupils by ethnicity, disability and gender
- Number of prejudicial incidents and the responses to them

Equality Champion

The school will identify someone from the Senior Management Team (or Governing Body) to act as an Equality Champion. This role will operate in a similar way to the Designated Safeguarding Lead, in that they will:

- be a key point of contact internally and externally
- keep up to date with legislation and guidance
- take a lead role in developing whole school initiatives
- manage the Equality Action Plan
- be involved in reviewing the Equality & Inclusion Scheme

They will not be solely responsible for embedding equality and diversity in our school. This is the responsibility of all staff, pupils, parent/s carers and other school users.

Curriculum, Teaching and Assessment

The school will audit itself against the seven areas as outlined in *Learning for All: Standards for Racial Equality in Schools (Commission for Racial Equality, 2000)*. The outcome of this audit will help inform our action plan.

Accessibility

For many people access is the barrier that most affects their daily lives. Access is not a simple physical issue but affects all aspects of daily life.

Barriers to access

Some of the types of access barriers people may face in a school environment:

- Layout of the building
- Layout of the playground
- Communication with the school
- Information the school provides
- Displays and publicity materials

Information in alternative formats and languages

Following consultation, we will make sure that all information for parents/carers can be made available in a full range of accessible formats as agreed with individuals concerned.

This may include:

- Access to translators and interpreters
- CD's
- Web-based downloadable versions of information
- Braille
- Pictorial versions for people with learning disabilities
- Access to British Sign Language interpreters

Accessible buildings and open spaces – See Accessibility Plan/Action Plan

Employment

Training

We will ensure that all school staff have received equality and diversity training. Equality and diversity will be included in all staff inductions through an introduction to this scheme and action plan.

Employment monitoring

We will monitor all six equality and diversity strands and address any issues that arise for:

- Staff in post
- Recruitment and selection
- Professional development opportunities
- Grievances and disciplinarys
- Staff leaving the organisation and reasons for leaving.

We recognise that some equality strands are under-reported, particularly, disability, religion/belief and sexual orientation.

Reasonable adjustments

We will proactively encourage disabled staff to declare their disability so the school can ensure that any access requirements are met. This may include a range of adjustments including:

- Adjustments to furniture
- Adjustments to computers and telephones
- Access to personal assistants or supporters
- Altering working hours
- Changing a place of work (e.g. level of classroom)

User involvement

Our school is committed to encouraging everyone to contribute to the development of the school and its impact on the whole community.

We will plan to increase the level of our consultation with different groups throughout the lifetime of this Scheme. This will be so we can:

- adjust our action plan to meet the outcomes if necessary
- Include the outcomes of involvement in the review of the Scheme in 3 years time
- Ensure that the involvement is real and that we hear the views of all disabled people that use our school

We will involve pupils, parents and staff and community members in the consultation process.

Partnership Working

Consortium Development of Equality Impact Assessments

The school will work in partnership with the local school cluster to develop Equality Impact Assessments of common school functions.

Community Groups

The school will work with community groups representing the equality strands to develop projects in school to address any prejudice that may exist. This work will be embedded within the curriculum and will address a wide range of learning needs and citizenship development.

Single Equality Policy Outcomes

Equality & Inclusion Impact Assessments for Schools

Equality Impact Assessments

An Equality Impact Assessment is a way of checking in advance so that schools can:

- Avoid making decisions that have a negative impact on groups.
- Make a decision knowing that there will be an impact but that it can be managed or limited.

EIAs are a legal requirement under the Race Relations Act, the Disability Discrimination Act and under the amended Sex Discrimination Act.

In the Single Equality Scheme for schools, Cumbria Children's Services recommend that we recognize 6 main equality strands:

- **Race/Ethnicity:** all minority ethnic groups and nationalities (including Eastern European people). Estimated at 3% of the Cumbrian school population.
- **Disability:** all people who have a limiting condition that affects their health, estimated at 20% of the Cumbrian population.
- **Gender/Gender Realignment:** all boys/men, girls/women and transgender people.
- **Sexual Orientation:** Lesbian, Gay and Bi-sexual people, estimated at 5% of the Cumbrian population.
- **Age:** people who are treated unfairly because of their age.
- **Religion/belief:** Covering all faith groups and people who are agnostic or atheist.

Under the law, schools need to make sure that all functions, policies and practices are covered by an Equality Impact Assessment.

The Process

Stage One: Gathering Evidence

The first thing to do is to map out the key information the school has. This may include:

- Monitoring information from the school census, assessment results, attendance rates and so on
- Benchmarking data with other schools - Consortium
- Inspection findings

Stage Two: Identifying the issues

This is the stage when the information is analysed and impacts are discovered. There are three types of impact:

- Positive: where schools can show their services improved for a group.
- Negative: where schools can show their services have disadvantaged a group.
- Potential: where a potential disadvantage has been flagged up.

Stage Three: Action Planning

For each negative or potentially negative impact, the school needs to plan for how to reduce or remove the problem. This may involve long-term targets. Actions may also cross-reference to other plans the school has.
